

Complete entrance solutions for Retail

ASSA ABLOY

ASSA ABLOY Entrance Systems

The global leader in
door opening solutions

"Staples' planned maintenance program has produced a reduction in service calls and overall downtime. This easily converts to savings in both time and money. Our goal is to provide a safe and comfortable store for our customers and our associates, and we believe the AAES PM program helps us do that."

Sara Grammell, Senior Manager, Retail Facilities - Staples
United States

Support in facing business challenges

There are many benefits to automating your entrances whether it be providing convenience for your customers, increasing productivity for your staff, optimizing the flow of traffic or reducing excessive energy consumption. The complete product portfolio offered by ASSA ABLOY Entrance Systems can help address all your entrance needs, whether it be the front, back or interior of your building.

Whether your retail store is a large, round-the-clock facility or a small neighborhood market, we can provide you with the ideal products and services to suit your needs as well as advise you on the best solution for your business.

Your success is our business

With more than half a century of experience in supporting retailers in their daily business, we take pride in our customers benefitting from our products and expertise.

Your goods, staff and customers' personal safety and convenience are a priority we share. For that reason, we meet or exceed local safety, security and disability regulations at all times. Your peace-of-mind is our motivation.

Our solutions include:

- Sliding, swing and revolving doors for smooth people flow
- Commercial and industrial sectional doors for durability and insulation
- High performance doors with fast opening and closing for optimal flow of goods inside the building

Major benefits:

- Energy-savings
- Improved convenience and business efficiency
- Extensive maintenance programs for operational excellence and pro-longed product lifecycle
- Convenience in people and goods flow
- Modernization programs
- Market-leading brands and a complete portfolio in entrance automation

The ins and outs of good business

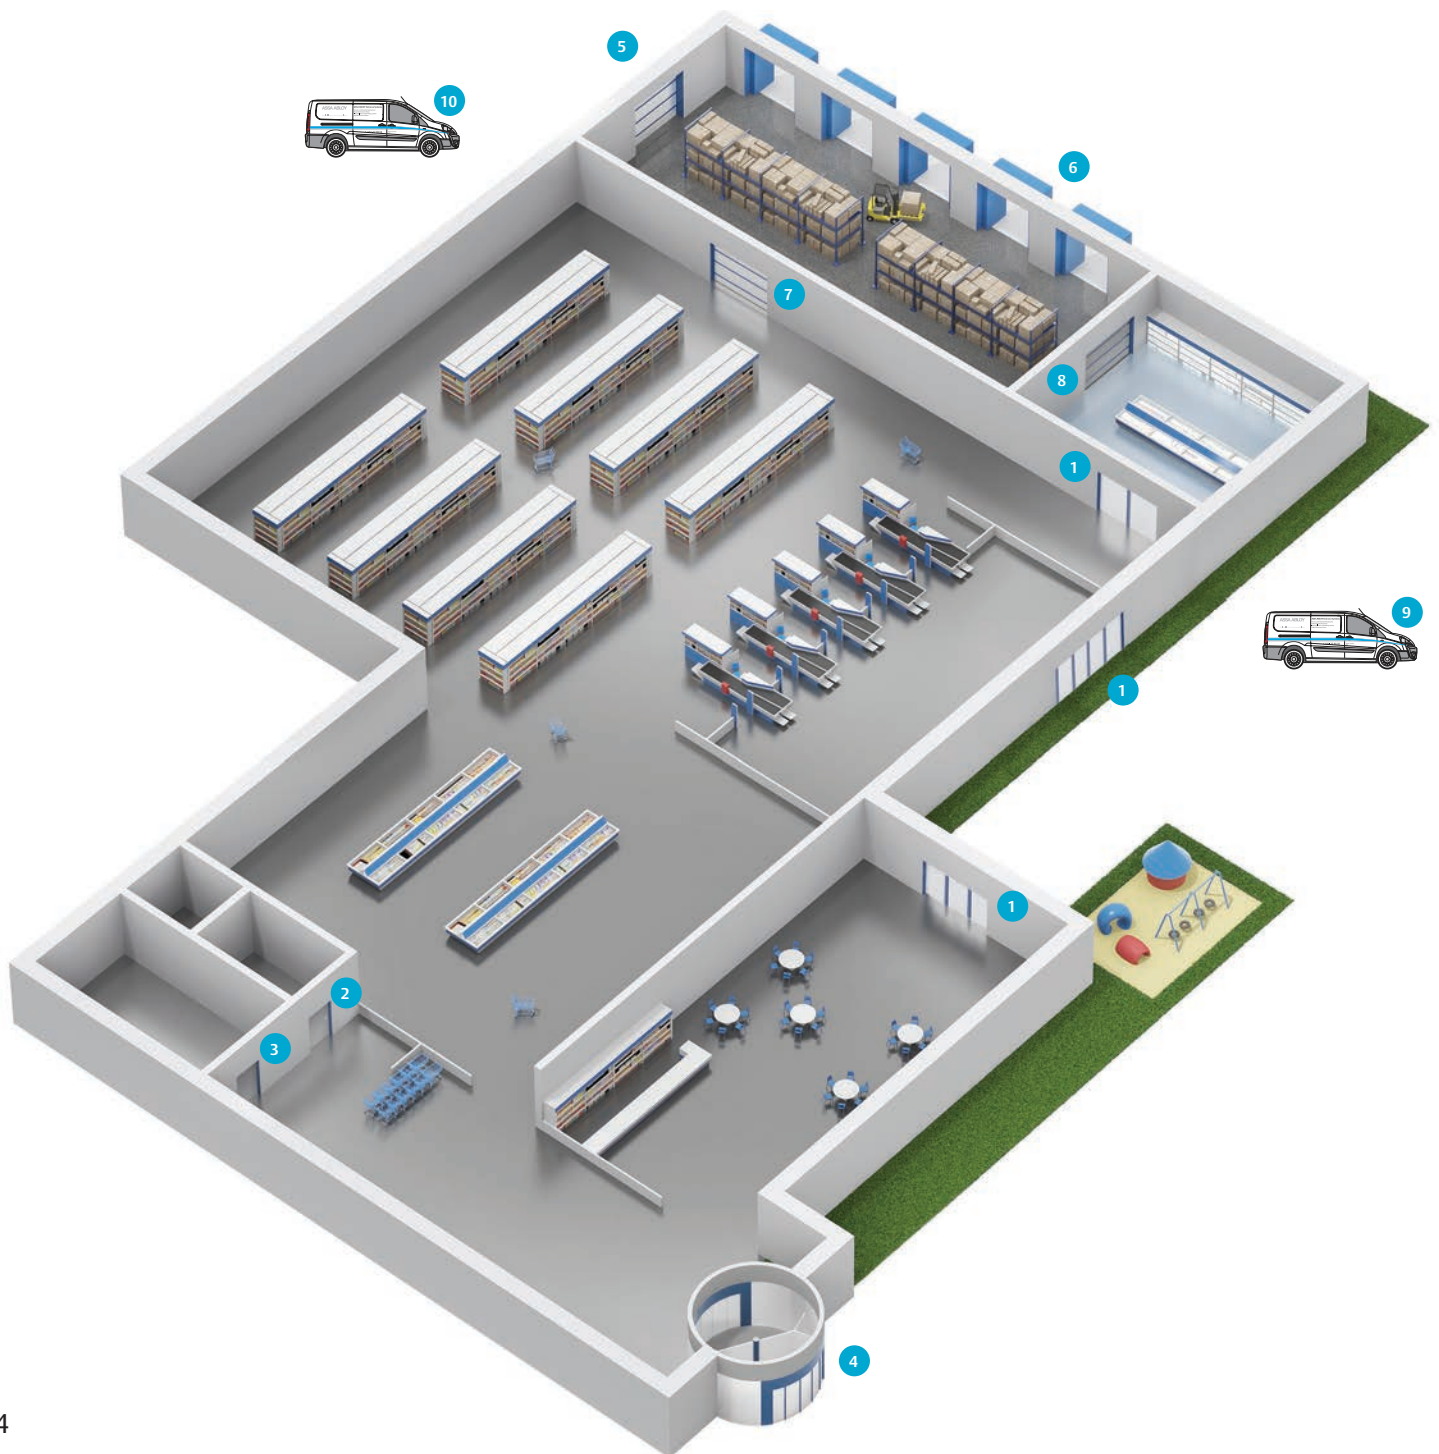

ASSA ABLOY Entrance Systems has a complete offering for all areas of your retail business. Whether the front, back or interior of your building, we're the natural choice for helping you meet your business challenges.

Solutions provided locally and globally

Entrance challenges in retail are as diverse as the goods themselves. For more than half a century, the most prestigious retailers in the world have relied on us to provide premier equipment, installation and service... on both a local and global basis.

Your needs are our focus

Automating your entrances has many benefits...from a welcoming entrance for your customers, to optimized flow of people and goods, and even reduced energy consumption. Our complete portfolio of products, coupled with our extensive service offering – can help you achieve the many benefits that automating your entrances provides.

Pedestrian doors

- 1 Besam sliding doors**
Besam sliding doors can be tailored to your business needs and aesthetic preferences. They can also be equipped with a variety of EcoDoor features which reduce air infiltration while lowering energy costs.

- 2 Besam swing doors (low energy)**
Besam low energy swing door operators are perfect for rest rooms and staff entrance areas.

- 3 Besam swing doors (pedestrian)**
Designed for full or low energy condition, Besam swing doors ensure maximum convenience when space is a factor. Add access control for increased security.

- 4 Besam revolving doors**
Besam revolving doors provide an expansive, welcoming entrance along with a weather tight design which keeps your indoor climate controlled and comfortable. Prominent display areas are perfectly suited to promotions and campaigns.

Commercial & industrial doors

- 5 Crawford overhead sectional doors**
Space-saving, robust and well-insulated Crawford overhead sectional doors are ideal for warehouse applications.

- 6 TKO impactable sectional doors**
Designed to take the abuse that occurs on the loading dock and to help facilities realize substantial energy savings and reduce maintenance costs.

High-performance doors

- 7 Albany interior high-speed doors**
Albany interior high-speed doors are space-saving doors for moderate traffic that form an effective barrier between incompatible environments.

- 8 Albany cold room doors**
Albany cold room doors lower energy losses in high-traffic cold areas without compromising speed and safety.

Maintenance and modernization

- 9 Pro-Active Care**
ASSA ABLOY Entrance Systems can support you in maintaining your entrances, so that you can focus on your retail business without interruptions. Our Pro-Active Care plans, which are adapted to your needs and budget, can encompass all automated entrances at your facility.

- 10 Modernization**
Modernization lifts your old entrance to today's standards. ASSA ABLOY Entrance Systems can provide convenient modernization kits for all automated entrances, covering all wishes and needs.

Maintenance programs and modernization services

Since your entrances are essential for your business flow, there is every reason to keep them working well. Our fleet of skilled and certified service technicians are the heart of our **Maintenance Programs** and **Modernization Services**, dedicated to ensuring that your entrances operate at optimal performance at all times, as well as assisting you in lifting older installations to today’s standards.

With an eye on tomorrow’s need

Maintenance and service aren’t about what you get. They’re about what you avoid: failures, losses and unplanned interruptions.

ASSA ABLOY Entrance Systems works according to your needs, with tailored solutions that ensure the function and availability of your entrances.

Modernization

Your entrances are a long-term investment from which you always want the best. Technology develops over time, so do regulations and your business. Let us support you to increase energy savings and meet today's standards. We provide expert advice and modernization kits for outdated installations, ensuring that your investment meets requirements and performs optimally for many more years to come.

We offer support in:

- Optimizing **convenience**
- Increasing **energy savings**
- Improving **safety**
- Enhancing **security**
- Giving your entrance a lift to improve its general **appeal**

Your budget - Your needs

Our complete service offering

ASSA ABLOY Entrance Systems strives to meet or exceed our customers' expectations in everything we do. We believe in taking care of all your business' automated door applications so you can focus on moving your business forward.

- Service 24/7 of all your automated entrances

Energy-saving advice and products

Calculate your return on investment and total energy-savings by potentially investing in a Besam Revolving Door or Besam SL500 Sliding EcoDoor.

A well-maintained automated entrance with the right configurations can help cut down on air infiltration and reduce your total annual energy spending.

ASSA ABLOY Entrance Systems team of automatic door experts can help you select the appropriate equipment to maximize energy savings. They are also available to assist with door and vestibule layout, providing another valuable tool in reducing air infiltration in your building

We aim to support our partners in finding the entrance and service solutions that effectively balance energy-savings requirements with design aspirations throughout each step of the building process. Inspiration, solutions, design and functionality, budget support - we can be of service no matter what your needs are.

Calculate and compare potential energy and emission savings for various docking concepts using the Crawford energy calculator.

Automatically green tools

Your local ASSA ABLOY Entrance Systems advisor has access to professional tools designed to provide our customers with reliable and relevant data for choosing the entrance products that best suit your specific circumstances and sustainability needs.

Years of testing, documentation and measurements of our products in different applications have gone into the development of these energy savings tools and they are continuously evolving. Local energy costs and environmental circumstances are taken into account, tailoring the report to each client and location.

Our energy and emission calculation tools are an important part of our sales advisors' toolkit for on-site assessments and demonstrations.

Maintenance and sustainability

Regular maintenance not only ensures top performance of an automatic entrance, it also reduces its impact on the environment. Our complete service offer includes maintenance programs as well as upgrade- and modernization possibilities, making it an excellent choice for customers looking to lighten their environmental footprint.

One point of entry for all your needs

Smoothly functioning entrances are a prerequisite for businesses. To keep them functioning at optimal levels, look to ASSA ABLOY Entrance Systems to provide superior products, innovative solutions and incomparable service for the front, back and interior of your building.

As the world's most comprehensive supplier of entrance automation products and services, we take an integrative approach to the flow of people, goods and vehicles, creating solutions with the best possible balance of cost, quality and lifetime performance.

Proven solutions and extraordinary service expertise

At your disposal is a strong portfolio of well-established brands, market leaders with decades of experience and a strong history of proven solutions and extraordinary service expertise. Today they are gathered under a single roof to meet all your requirements.

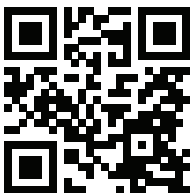

ASSA ABLOY Entrance Systems is a leading supplier of entrance automation solutions for efficient flow of goods and people. With our globally recognized product brands Besam, Crawford, TKO, Albany and Megadoor, we offer products and services dedicated to satisfying end-user needs for safe, secure, convenient and sustainable operations. ASSA ABLOY Entrance Systems is a division within ASSA ABLOY.
